BY THE NEW ASSOCIATED PRESS—P.M.

NASHVILLE, Aug. 4.—[Exclusive

Dispatch.] A train of dynamite was blown

up at the Nashville station, and a

train-robber and desperado, tonight

led a desperate band of sixteen con-

victs to liberty from the Tennessee

penitentiary. Fifteen of the escaping

party got entirely clear of the peni-

tentiary, but one, E. S. Harney, a safe-

blower, sent up from Nashville, paid

the penalty of death in the hold under-

taking.

Joe Lona and James Work were

tracked down by bloodhounds and cap-

tured, but the rest of the prisoners had

gone so far out of bounds by midnight

that no trace of them could be had.

The prisoners were evidently fur-

nished the dynamite from the outside,

and used it in blowing out an opening

in the main wing of the prison. Har-

ney stood off the inside guard with a

brace of revolvers, which had also

been furnished him from the outside,

while the men preceded him to liberty.

The dynamite was laid by Doe, the

train-robber, and he made good his es-

cape.

Six of the prisoners that got away

were government convicts, and the

others were State convicts. Poses

with bloodhounds are in pursuit.

ASSAULTED AND KILLED.

Don Wilson, a Los Angeles girl, was

killed today by a Russian naval man-

sioner taken from her.

SALT LAKE CITY (Utah) Aug. 4.—

[Exclusive Dispatch.] The police of

this city today arrested a man who

gave his name as Ed Redmond, on the

charge of assaulting and robbing Miss

Dora Wilson. Both are said to have

being introduced by a friend. The

acquaintance soon grew from the

fact that Redmond stated he was a

close friend of a sister of Miss Wilson,

who lives in Salt Lake.

After a time Miss Wilson accepted

an invitation to go into a refreshment

parlor at the Old Continental Hotel.

On entering the place she says she

ascertained at once that it was a com-

mon wine room. She insists that she

protested, and that before the waiter

began to serve her, she was struck by

a vicious blow, falling her to the floor,

when he immediately proceeded to kick

her into unconsciousness, after which

he robbed her of \$10 in gold and \$20

in rings that she wore. These were

taken from her, and she was then

violence as to badly injure the

victim. She was left in an insensate

state by Redmond, who was seen to

rush down the street in the act of put-

ting something into his pocket.

On recovering consciousness, Miss

Wilson was taken to the office of Chief

of Police Paul, where she told her

story of the assault and theft. Tager-

red immediately identified him as the

perpetrator. He was arrested by the

force this afternoon. He was locked

up and refused to talk. Tonight Miss

Wilson was taken to the station again

and positively identified him as the

perpetrator of the deed. The case will

be called in Judge Der's court tomor-

row afternoon.

the Commons—Brodrick's  
Vague Defense.

BY THE NEW ASSOCIATED PRESS—P.M. LONDON, Aug. 4.—[Exclusive Dispatch.] Another war office scandal has come to light at Woolwich Arsenal, where, until 1890, the products of gun foundries were given to local authorities for repairing roads. Arsenal authorities were then offered 44 cents a ton for the waste metal. The offer was accepted, and the waste metal was sold to a local dealer, who was later found to have sold it as waste material.

## RE-MOUNT SCANDALS.

BY THE NEW ASSOCIATED PRESS—P.M. LONDON, Aug. 4.—The re-mount scandals were discussed in the House of Commons today in the course of a discussion of the army estimates and the item of transportation and re-mount. Mr. Charles Dilke (Advanced Radical) suggested the publication of the evidence on the re-mount scandal obtained from the United States and Argentine. Col. John P. Nolan (Nationalist) condemned the loose system of contracts under which such dreadful results were possible, and several members of the House deprecated the method of purchasing horses through middlemen.

Mr. Brodrick, the War Secretary, replying, said the members overlooked the difficulties in the way of obtaining horses in an emergency. He said the government intended to prove the charges, but he believed some re-mount officers had been harshly judged on a charge that Lord Kitchener would join in the universal cry against the re-mount department.

In answer to the War Secretary, John Dillon, Nationalist, asserted that Mr. Brodrick's vague speech only strengthened his suspicion that the government was at an instance of this that the government had not denied that Maj. Studdert had profited largely through his horse in Ireland under a false name.

Mr. Brodrick denied that he had no disposition to put the students and other investigations, and said the government would go to the fullest extent to convict the perpetrators of conspiracy and fraud on the item of transportation and re-mount was agreed to.

## ROSEBERRY'S SPEECH.

## IT ENRAGES THE IRISH.

BY THE NEW ASSOCIATED PRESS—P.M. NEW YORK, Aug. 4.—Lord Rosebery's speech on Thursday night, although creating little surprise naturally, attracted considerable attention in Ireland, where a London dispatch to the Tribune, it was regarded as marking a definite departure of the ex-premier from Mr. Gladstone's Irish policy, which he supported from 1898 to 1900.

The Nationalists accuse Lord Rosebery of flagrantly deserting the cause handed down to him by a great and noble statesman, and are anticipating that any possible Liberal government must depend partly or wholly on whom the determination to render his policy ineffectual.

## KING WALKS UPSTAIRS.

## STROLLS ON PROMENADE DECK.

BY THE NEW ASSOCIATED PRESS—P.M. LONDON, Aug. 4.—[By Atlantic Cable.] King Edward today, for the first time since his illness, walked up and down a slight of stairs without assistance. He also enjoyed a stroll upon the upper promenade deck of the royal yacht Victoria and Albert, from which a splendid view of the yacht races was obtainable. Ex-Emperor Eugene, who has arrived here on her yacht, the Thistle, visited King Edward today.

## NEAR SESSION'S END.

## RUSHING BILLS THROUGH.

BY THE NEW ASSOCIATED PRESS—P.M. LONDON, Aug. 4.—[By Atlantic Cable.] The House of Commons sat until 11 o'clock this morning passing estimates to millions of pounds by the new familiar end of the session "gullotine" press, but without the scenes which usually accompany wholesale closure. Owing to protracted debates on the government's education bill, it is probable that the House will be compelled to sit until next Monday instead of adjourning at the end of this week.

## Accident to the Camerons.

LONDON, Aug. 4.—While former United States Senator J. Donald Cameron and Mrs. Cameron were driving this afternoon from Fort William, Invernesshire, Scotland, to Inverloch Castle, Lochaber, which he has leased for the summer, and the carriage collided with a cart. Both Mr. and Mrs. Cameron were thrown out, and he was severely injured in the groin. With the exception of the shock, Mrs. Cameron was not hurt.

## DUTCH THEORY.

BY THE NEW ASSOCIATED PRESS—P.M. LONDON, Aug. 4.—[By Atlantic Cable.] The correspondent of the Daily Mail at The Hague says in a dispatch that it is becoming increasingly

difficult to combat the generally accepted Dutch theory that the Boer leaders here are campaigning toward the ultimate subversion of British rule in South Africa. The Boer general, Louis Meyer, who has just reached here from London, is going to visit Mr. Kruger, while several of the prominent leaders are assembling here. Nobody at the Hague, continues the correspondent, believes their story that their mission is to collect funds for Boer widows.

SITUATION IN FRANCE  
MAKES VATICAN ANXIOUS.THINKS PREMIER INTENDS TO  
DENOUNCE THE CONCORDAT.

Cardinal Rampolla Said to Be Still in Favor of a Temporary Policy—Demonstration Against Pious Engraved in Closing Schools Near Chambery.

BY THE NEW ASSOCIATED PRESS—P.M. ROME, Aug. 4.—[By Atlantic Cable.] The Vatican regards the present situation in France arising from the closing of unauthorized congregational schools as most grave, as it is now believed to be the intention of M. Combes, the French Premier, to denounce the Concordat.

It is rumored that Cardinal Rampolla, papal secretary of state, is still in favor of temporizing with France, fearing that the hostile attitude of the Vatican toward that country would lead to grave complications. Some of the cardinals advocate an entire rupture with France, thus anticipating that Republicans prevent the passage there further anti-clerical laws.

## POLICE BREACHED THE WALLS.

## CHAMBERY (France) Aug. 4.—

Crowds made demonstrations in two neighboring townships today against Commissioners of Police, who were closing the schools in an emergency. The towns were running and the sisters who refused to open their doors to the commissaries were cheered by the people. The police were eventually obliged to make breaches in the walls of the building, whereupon the sisters, amid the cheers of their sympathizers, left by the front doors.

## PRESIDENT'S GUESTS.

## Whitlaw Reid, Archbishop Ryan and

## Gifford Pinchot Among the Number—

## His Talk With Ryan.

BY THE NEW ASSOCIATED PRESS—P.M. OYSTER BAY, N. Y., Aug. 4.—[Exclusive Dispatch.] President Roosevelt's guests today were Archbishop Ryan and Gifford Pinchot, chief of the Bureau of Forestry of the Agricultural Department, called early in the afternoon, and was a guest of the President at luncheon. During the afternoon he discussed some departmental matters, including questions of forest reserves.

Archbishop Ryan talked chiefly with the President about the work being done among the Indians by the Catholic mission, in which he was appointed a few months ago as successor to Bishop Whipple.

They discussed the Philippine friars' question, the President speaking freely and frankly on his attitude in the matter. He is satisfied that the Philippine friars have not the confidence of the archbishop, and to replace them with good men, with as many from America as possible, to whom the natives will listen and in whom they will have confidence.

PRINCE CUPID  
AN ASPIRANT.He Wants to Sit in the  
Halls of Congress.Seeks the Indorsement  
of Republicans.Dennis Flynn Interviewed—  
Unusual Movements in  
Ocean Noted.

BY THE NEW ASSOCIATED PRESS—P.M. HONOLULU (H. I.), July 21.—[Wire from San Francisco, Aug. 4.] There is quite a boom in naturalizations in the United States District Court here, owing to the approach of election day.

The Portuguese, presented themselves to Judge Estes on one morning last week. There were only two witnesses to swear for all of them, and the judge refused to make them citizens until they secured separate witnesses for each one. A large majority of the Portuguese population is excluded from the polls by the provision requiring voters to be able to speak, read and write English or Hawaiian, but there will be several hundred Portuguese voters this year.

The two factions of the Home Rule party are both canvassing the islands for support, Delegate to Congress H. W. Wilcox having gone on a tour of the outlying districts. It is reported, however, that among the leaders of the party, there is a growing sentiment against the Home Rule party.

The new party wants to nominate Prince Cupid for Congress, to run against Wilcox, but some of the leaders have stated that unless the Republicans are willing to indorse Cupid, he will not be nominated by them, and they will return to the support of Wilcox.

For the first time in a dozen years the bark Mauna Aia, the last of the great sailing vessels, is to be seen running between here and San Francisco, left here on July 21, in ballast. She has always been able to secure a cargo of passengers, and the competition of the American-Hawaiian line, which go to New York, round the Horn via the sugar-carrying business of the sailing vessels.

Pinchot, who has been spending a couple of weeks in Hawaii on a vacation, while in Honolulu, submitted to the President a report on the Hawaiian Islands, in which he referred to a possibility that the Territories would be deprived of their right to send delegates to Congress. Flynn, who is a member of the Hawaiian party, is in favor of such action, and that many members of Congress did not welcome the prospect of having delegates from the Philippines and other island possessions. He thought it more likely that the Territories would be denied the right to send representatives, should the new possessions all be made Territories.

Prof. Curtis J. Lyons, government meteorologist here for many years, says that for the past three months there has been considerable movement in the ocean surrounding the Hawaiian Islands. The movements referred to are in the nature of tidal waves, Lyons relates, which he has observed in some part of the Pacific, whether near or remote, it is impossible to say. The unusual conditions have been observed by him, and he has been observing the movements of the tide gauges. Prof. Lyons suggests that the cause may be a disturbance in the Pacific Ocean.

The Commercial Pacific Cable Company has been granted permission to lay a cable conduit through the streets of Honolulu from its cable landing at Waikiki to its office in the Young building.

CHICAGO, Aug. 4.—[Exclusive Dispatch.] Another day without rain. The continuation of the ideal summer-weather is beginning to worry the weather forecaster, and he is conjuring up visions of a break in the present conditions. He promises increasing cloudiness and possible thunderstorms for tomorrow. The temperature today varied from 68 to 76 deg. The wind continued off the lake till night, when it shifted to the south. Temperatures at 1 a.m.: New York and Philadelphia, 74; Boston and Cincinnati, 72; Washington, 75; Chicago, 70; Minneapolis, 62; St. Louis, 74. FIVE-MILLION-DOLLAR ROAD.

W. L. Dickinson, of Springfield, Mass., and L. C. Boardman of New York, prominent in the movement for the construction of a macadamized road from New York to Chicago, are at the Annex. They said: "The road will cost \$5,000,000. Of the \$50 million, over \$50 million in parts. These need to be joined together."

GATES' NEW ACQUISITION. John W. Gates and his friends have been interested in the Weaver Coal Company, and the capital stock has been increased from \$1,500,000 to \$3,000,000. The new property acquired by the enlarged company, consists of bituminous coal beds, bought by Mr. Gates recently, as a speculative venture. This includes 500 acres in Illinois, and 4000 in Ohio, the estimated value of which is \$1,500,000. The company owns under the name of the Maryland Smokeless Coal Company, including the towns of Weaver and Leiter, and a twenty-five-mile railroad.

ALL SAME LOS ANGELES. (BY DIRECT WIRE TO THE TIMES.) GALESBURG (Ill.) He objected to a clause granting the privilege of carrying freight.

UNION GIRLS' FACTORY. (BY DIRECT WIRE TO THE TIMES.) KEWANEE (Ill.) Aug. 4.—[Exclusive Dispatch.] The factory girls who have been on a strike here for several months secured articles of incorporation today, and as the Union Girls' Factory, they will begin to make mittens, overalls, gloves, etc., in

pled to agriculture at the discretion of Congress. The foregoing has been substantially approved by Congress, only the details remaining for discussion, which will begin Monday in public sessions. DIRECT INTEREST IN IT. (BY THE NEW ASSOCIATED PRESS—P.M.) WASHINGTON, Aug. 4.—Under the Platt amendment, the United States is bound to take cognizance of every action of the Cuban government relating to loans. Article 2 of that amendment provides: "That said government shall not assume or contract any public debt to pay the interest upon which, and to discharge the principal thereof, for the ultimate revenues of the island of Cuba, or the proceeds of the current revenue of the government, shall be inadequate."

No computation has been made to date as to whether or not the loan provided for in the bill, which Minister Squiers refers to trespasses upon the provisions of the Platt amendment, but it is presumed that the Cuban revenues can pay the interest and provide a sinking fund, besides defraying the ordinary expenses of the government. At the same time it will not doubt be found very difficult to interest the Cuban government in the question of revenues may fluctuate according to the conditions in the island.

It is known that the intention of article 2 was to provide against any extraordinary purchase of bonds for the purpose of redeeming the bonds of the so-called republic, previous to the Spanish-American War, and the payment of large bounties, to those who had taken part in the insurrection against Spain. It was intended as a check upon the Cuban government in the matter of incurring indebtedness, although it carries no provision indicating what would be the action of the United States, should the Cuban government exceed the indebtedness prohibited by the amendment. Neither is there anything in the amendment indicating what steps the United States would take to determine whether the indebtedness was beyond the proscription, or whom it would prevent the incurring of such indebtedness.

BREAD TRUST IN MEXICO. CITY OF MEXICO, Aug. 4.—There is much indignation here over the formation of a pool among the bakers to raise the price of bread. This trade is in the hands of half a dozen rich Spaniards, who have entered into an agreement to charge prices mutually agreed on, and not in any way to enter into competition. The agreement is for two years.

SUPERB ROUTES OF TRAVEL—Altitude 7,000 ft., inspiring a cool, invigorating atmosphere. July and August are the most favorable months for visiting this most stupendous of wonders. Stolid, indeed, is he who can front the awful scenes and view its unearthly splendor of color and form without quailing fear or "trempous breath."

DENVER, Aug. 4.—On his bed, William Thompson of Villa, Colo., has confessed that he killed his own son, Benjamin H. Thompson, aged 18, and that Zed. Thompson, who is serving a term of ten to twenty years in the penitentiary on a charge of murdering the boy, is entirely innocent. The case was brought to the attention of Gov. Orman. Tracy, the Oregon outlaw, is be-  
lieved to be hiding today in the rough  
Creek country, west of Harting-  
ton, waiting for darkness to sneak  
south toward the wild region in  
southeastern Lincoln county. A spe-

Texas, says that a man from the  
Creek country, who was seen by  
Tracy's wife, two and one-half miles  
north of that town, about 9:30 o'clock

a road that leads to Wilbur, riding  
a horse and leading another, and  
carried two rifles. He did not stop,  
but spoke to the woman, as he passed,  
and was suspected that he merely turned  
to find a hiding place.

hours of 1:30 and 3 o'clock this morn-  
ing.

that number. The canneries at Biggs,  
Vina and Gridley are all short-handed.  
At Anderson there is a lot of help  
enough to take care of the immense

from the Pit River country, and Mo-  
doc county to lead a hand.

**HARD WHACK AT TAYLOR.**  
German Paper Calls American Re-  
ar-Admiral Incompetent and Indecent Be-  
cause of His Alleged Predictions.

**THE NEW ASSOCIATED PRESS.—A.M.**  
BERLIN, Aug. 4.—[By Atlantic Co-  
ble.] The utterance attributed to  
Rear-Admiral Taylor of the United  
States Navy, as to a prob-  
able conflict between Germany and the  
United States in 1907 was printed con-  
spicuously here. The Tagblatt says  
it requires all the ingenuity of the  
dispatch from Washington Rear-Ad-  
miral Taylor, Chief of the Bureau of  
Navigation, was credited with having  
given expression to the ideas referred  
to in the foregoing message from Ber-  
lin. In this Washington dispatch Rear-  
Admiral Taylor was described as thor-  
oughly alive to the steady set of a cur-  
rent which is carrying the United  
States and Germany along converging  
lines in many parts of the globe, and  
bringing these two nations into closer  
rivalry elsewhere.

To Rear-Admiral Taylor was given  
the credit of warning the leaders of  
the United States navy and army that  
preparations must begin at once, and  
be vigorously prosecuted from this  
time forth for a grave crisis in Ger-  
man-American relations in the spring  
of 1907. The time of this crisis is fixed  
coincident with the most efficient sea  
power Germany now contemplates—the  
time when the Panama Canal will  
be opened when the Cuban reciprocity  
may have reached the end of its  
tether; when Jamaica and other West  
Indian islands will be prelate in  
bankruptcy; when the Netherlands—  
according to Admiral Taylor's predic-  
tions—will have been absorbed by Ger-  
many leaving Curaçao and the other  
Dutch islands of the Caribbean Sea as  
bones of contention to force a supreme  
test of the Monroe doctrine.

**Heat Record for the Year.**  
TOPEKA (Kan.) Aug. 4.—All heat  
records for this year were broken to-  
day when the government thermome-  
ter registered 100 degrees. A hot wind has  
been blowing all day, but corn is not  
injured on account of the good start it  
obtained before the hot weather set in.  
Reports of good rain are received from  
the western and northern part of the  
State. It is understood that the corn  
crop is practically assured now, even  
should the weather be unfavorable  
from this time on.

## HILL TALKS TO FARMERS.

What They Must Do to Be Saved.

Need New Markets for Their Products.

Frisco After the Georgia Central—Hitchcock is Promoted.

THE NEW ASSOCIATED PRESS—A. M. SPOKANE (Wash.) Aug. 4.—"I am getting to be an old man. I have not many years to live. If I accomplish all I have set out to do, things must move with celerity."

Such is the statement of James J. Hill, president of the Great Northern Railway, who, in company with Charles S. Mallen, president of the Oregon Railway and Navigation Company, and a number of minor officials, arrived in Davenport this morning to confer with the farmers of the Big Bend country in regard to railway rates and shipping conditions. Delegates are present from Iowa, Minnesota, Wisconsin, Illinois, and Missouri, representing a region which it is estimated may harvest 20,000,000 bushels of wheat this year. Tomorrow a similar conference is to be held at Chicago.

The president's special arrived at Davenport about 8:30 o'clock this morning.

The day's programme included a public meeting at 10 a. m., addressed by President Hill; a banquet dinner with the farmers at noon, and a conference between the railroad presidents and the representatives of the farmers in the afternoon.

The feature of today's conference was the announcement of President Hill, that after consultation with President Hill, the Northern Pacific has ordered the building of a railway from Davenport to the Central, Washington at Council City to Adrian, on the Great Northern, about twenty-five miles south. This will cut off 150 miles in the haul to the coast.

The estimated cost of this railway is \$100,000, which President Hill declares is a gift to the people of Great Bend, as the railroad goes through a barren country. It is thought it may be completed by November, 1903. In his speech President Hill said:

"The whole rate fabric is like a card house. We can do nothing here without doing something at other points. We are bound to gain something by the spirit in which you called this conference. Coming to us not by intermediaries, politicians and other points, try to work us, but you, working with us as allies, you thus freeze out the middlemen."

In his speech to the farmers of the Big Bend, President Hill vigorously attacked legislation on railway rates, saying:

"As well attempt to set a broken limb by statutes as to adjust rates. You can legislate until the barn doors rot off. The best thing to do is to act. We will try to act in such a way that you will realize that we are doing something for you and in your interest."

"What you want is the highest price from any store. You want a new market. You must make a market. You must make people who work your stuff. Statesmen will tell you how to do this, but they get a consideration for doing it. I cannot find any public official intelligent thing that you have done to get new markets. I don't know any place where you have not been left to shift for yourselves as farmers. You have crops that keep you busy four months in the year. What you should do is to raise stock, roots, forage. There is nothing better than all Big Bend points to the coast. The present rate is 1 1/2 to 1 3/4 cents. The conference may also take up the proposition of shipping Washington grain east via Minneapolis in case Pacific Coast buyers should attempt to form a combine."

## CONTROL OF GEORGIA CENTRAL.

CURRENT REPORTS DENIED.

THE NEW ASSOCIATED PRESS—P. M. NEW YORK, Aug. 4.—Reports that the St. Louis and San Francisco road is negotiating for the control of the Georgia Central system are scouted by leading representative of the last-named property.

"This is the first time I have heard of any such plan," said this director. "There is nothing to justify it, and all talk that the Georgia Central is under control of the Chicago and Eastern Illinois, and it is said to be branching out in other directions."

Equipment Ordered for Oil.

PORTLAND (Or.) Aug. 4.—The Columbia Southern Railway Company has given orders to have all engines equipped for burning oil.

Frisco After Another Line.

NEW YORK, Aug. 4.—Very positive statements were made today that negotiations are pending for the acquisition of the Georgia Central system by the St. Louis & San Francisco. From the same authority a denial was obtained of the report of a grand merger of all Southern railroads.

Promotion for Hitchcock.

TOPEKA (Kan.) Aug. 4.—John W. Hitchcock has been appointed assistant superintendent of the Santa Fe coast lines. He has for some time been chief clerk to Manager A. G. Wells, of the coast lines.

FAILURE AVERTED BY MERGER.

BOSTON, Aug. 4.—At a meeting of the shareholders of the Bowler Fertilizer Company, the proposed merger of the company with the American Chemical Company was ratified. The objection of former Treasurer Coe as to the stockholders, together with memoranda showing how \$120,000 in notes had been misappropriated by Coe and counsel for the company, announced that an assignment of the company after the discovery of the misappropriation was averted by the sale to the larger company.

## COLOMBIA AND NICARAGUA.

ESTABLISH ENTENTE CORDALE.

THE NEW ASSOCIATED PRESS—A. M. WASHINGTON, Aug. 4.—Negotiations have been opened in Washington for the establishment of an entente cordiale between the governments of Colombia and Nicaragua. Ministers of Colombia and Nicaragua are carrying on the negotiations. The movement grows out of the suspicion with which these two countries have viewed each other of late. Colombia has asserted that Nicaragua is responsible for much of the trouble on the Isthmus of Panama; that expeditions have been sent to the Isthmus of Panama, and that the Nicaraguan port of Corinto is a base of revolutionary operations against Colombia. Now, however, there are good prospects that negotiations opened in Washington will lead to mutual explanations and apologies, and to an agreement by which each will rigidly respect the laws of neutrality and the rights of the other.

## ALL QUIET IN MEXICO.

CAPT. MCGEE'S CARRIAGE.

WASHINGTON, Aug. 4.—Capt. McGee of the gunboat Machias today cabled the Navy Department that the outbreak in Hayti is practically over. The cablegram, which is dated Cape Haytien, August 4, is as follows: "After interview with authorities, affairs of affairs appears more satisfactory. Nationalists are well armed. Rebels have been driven from critical positions. Little enthusiasm. No further danger of serious disturbances." Capt. McGee requested permission to go to San Juan, Porto Rico, for coal. This was granted, and the Machias probably will come north, unless there is another outbreak in Hayti.

## DECORATIONS FREE OF DUTY.

THE NEW ASSOCIATED PRESS—A. M. WASHINGTON, Aug. 4.—Acting Secretary of the Treasury Spaulding today issued instructions to the collector of customs at New York, directing him to admit free of duty the box of decorations, etc., sent recently to the German Ambassador, by the Hon. William, for delivery to those who took an active part in the entertainment of Prince Henry, when he was in the United States.

## TRAIN PASSED THEM BY.

GANG OF OUTLAWS FOILED.

THE NEW ASSOCIATED PRESS—P. M. EVERETT (Wash.) Aug. 4.—Sunday night the Great Northern east-bound Overland train was set upon by a gang of outlaws, presumably for the purpose of holding it up. Several valises were fired from the darkness, crashing through the windows of a Pullman sleeper, and a dining car received a slight flesh wound in the forehead. The train was not stopped.

## BOYACA IN DANGER.

RANGER ASKED TO SEEK HER.

WASHINGTON, Aug. 4.—Capt. Porter has sent out the following dispatch to the Navy Department: "Governor of Boyaca requests range to search for Boyaca, supposed broken down and in distress. Many lives in danger. Consul Indorosa."

## BARROWS INDICTED.

THREE COUNTS AGAINST HIM.

WASHINGTON, Aug. 4.—The grand jury today indicted Harry A. Barrows, formerly disbursing clerk of the United States Census Bureau, on three charges. The first charge is perjury, the second is larceny of \$7500. The second describes the alleged offense as a violation of section 548 of the Revised Statutes, and says Barrows received money that had been lost in gambling at cards and betting on horse races, and that he had "applied the residue in payment of his personal debts."

## HUGE FLOATING DOCK.

INTENDED FOR PHILIPPINES.

WASHINGTON, Aug. 4.—The Navy Department will soon call for bids for a huge floating dock to accommodate a 16,000-ton battleship, to be built in the United States, and floated over to the Philippines. This will be one of the largest floating drydocks ever constructed. The amount available is \$1,250,000, and Admiral Endicott of the Bureau of Yards and Docks has already completed the specifications under which the huge structure will be built. Whether it will be towed across the Pacific or across the Atlantic and up the St. Lawrence River will depend upon the place of its construction, but in any event the towing of this gigantic steel structure such a distance will be a formidable undertaking.

## STATUE TO STEVENSON.

FOUNDER OF GRAND ARMY.

WASHINGTON, Aug. 4.—Commander-in-Chief of the Grand Army of the Republic, has appointed a committee to organize and press to a speedy completion the work of erecting in this city a statue of Gen. B. Stevenson, founder and first provisional commander-in-chief of the Grand Army.

The committee is: Thomas Lawler, Illinois, past commander-in-chief, chairman; Thomas I. Hopkins, ex-commissioner of Pensions; James Taylor and John McElroy of the District of Columbia, and Louis Wagner of Pennsylvania.

Sensor Quay Goes Fishing and His Boat, Caught by a Fierce Storm, is Swept to Sea.

THE NEW ASSOCIATED PRESS—A. M. NEW YORK, Aug. 4.—United States Senator M. S. Quay has had an exciting experience here, says a dispatch to the New York American from Atlantic City. He was out in a little fishing smack enjoying a day's sport when he was caught in a fierce storm and swept to sea.

The Senator was fishing with his old friend, Capt. Sooy. They were about ten miles when the storm came. The sky suddenly became so dark that it was impossible to see a boat's length. The sea rose to a dangerous height. The two were close reefed and the party prepared to ride the storm. The tide carried them out to sea, and the rain poured in torrents for over three hours. At one time it looked as if the boat would be swamped, but it rode the storm out in safety.

The fishermen were many miles from Atlantic City when the storm passed over, and were obliged to spend the night at Brigantine.

## MRS. SPECKELS' NECKLACE.

THE NEW ASSOCIATED PRESS—A. M. LONDON, Aug. 4.—[Exclusive Dispatch.] Scotland Yard announces a reward of \$5000 for the recovery of a rub and diamond necklace lost by or stolen from Mrs. C. A. Mrs. Spreckels was accompanied by Miss Spreckels, missed the necklace at the railroad station when on her way to take passage for America on the Kaiser Wilhelm Grand Express. She burst into tears on discovering her loss, and at first thought of remaining in England until some trace of the missing necklace was found. But later decided to leave the possible recovery in the hands of police agents.

THE TIMES will furnish readers with a permanent Record of the Greatest Disaster of Modern Times, the Destruction of St. Pierre, Martinique, illustrated from Photograph taken immediately after the disaster.

# MARTINIQUE = ST. VINCENT =

Guadeloupe, St. Lucia, Dominica, Barbadoes

AND THE

# Danish West Indies

WITH LATEST VIEWS OF

Mt. Pelee, La Soufriere and the Burned Cities

TO WHICH IS ADDED THE

# Volcanoes in United States Territory.

This work is both descriptive and historical, giving facts and data of the more important West Indian Islands brought into public notice by the recent volcanic disturbances. It gives in a concise and interesting way their origin, geographical and political character with the history and characteristics of the people. The exceptionally clear and artistic views show very graphically the charming aspects of Martinique, St. Vincent and other places before the eruptions of Mt. Pelee and La Soufriere, while the large number of views taken since that disaster show the country as it now is, and convey as realistic an effect as could be attained by a personal visit.

The description and views of the Danish West Indies included in the work will be not only of present but of permanent interest, as these islands in all probability, will so soon be a portion of United States territory. By issuing the work in 10 parts, at the nominal price of 10 cents a part, it makes it possible for every one to become the owner of it, and so secure for only \$1.00 copies of 500 photographs that could not be purchased for less than \$1,000.00, again demonstrating the power of co-operation that gives to the many for \$1.00 what costs the individual possessor one thousand times that amount.

## Illustrations

The illustrations are from photographs, many of which were taken at the risk of the lives of the daring photographers, and include views of the various islands and their people, more particularly of Martinique and St. Vincent. Forty of these views were taken while Mt. Pelee was still in eruption, and convey, better than any text, an idea of the destruction and desolation of this dreadful disaster. Many views are given of Guadeloupe, St. Lucia, and Dominica in which many of the inhabitants of the stricken country have taken refuge. The views of the country and people in the Danish West Indies give a faithful representation of what promises to be soon a portion of the United States.

## SQUEALING BEARS.

Doing Their Best to Avoid Payment of Their Margins on July Oats—Injunctions Issued for Them.

THE NEW ASSOCIATED PRESS—A. M. CHICAGO, Aug. 4.—Judge Chetlain today issued twenty-nine more injunctions, as a result of the legal battle that is being waged over the recent corner in July oats. At the request of Waite, Thoburn & Co., the complainants in the former injunction suits, nineteen orders were issued against the Bank of Montreal, restraining its officers from paying over margins to as many Board of Trade firms to whom the complainants had made short sales of July oats.

There is a remarkable difference in the nature of the petition on these bills, however, from those first granted. The petitions this time, instead of alleging conspiracy to corner July oats, state that the margins can only be paid by the use of illegal authority inequitable and unjust. Ten of the injunctions issued today were the complaint of Fruit & Buckley.

at Brighton Beach.**

**Enormous Winnings of  
the Big Plungers.**

**"Young" Gibbs Explains Attitude  
Toward Lavigne—  
Ball and Races.**

(BY DIRECT WIRE TO THE TIMES.)  
NEW YORK, Aug. 4.—[Exclusive Dispatch.] The last week of racing at Brighton Beach race track was one which will probably never be forgotten by bookmakers who did business there. The "bookies" were certainly hard hit by the plungers and followers of the sport. One bookmaker, in explaining his hard luck, said: "It's a good thing the Brighton has closed, for it had cost me another week or two to have been sent to the poorhouse."  
Senator McCarran is betting more money these days than any of the big plungers. It is estimated that, conservatively, Senator McCarran has won close to \$250,000 this year. William Harrison and Jesse Lewishson are all far ahead of the game. Gideon took \$25,000 out of the ring Saturday, when over a million won. Barry cleaned \$30,000 in the Brighton meeting. Lewishson won \$2000 on himself's victory when Miles won, but was disqualified. Inidentally the public has fared better than ever this year, numerous bookmakers having been temporarily put out of business.

### BROKEN WITH LAVIGNE.

COMPLAINT OF "YOUNG" GIBBS.  
(BY DIRECT WIRE TO THE TIMES.)  
SAN FRANCISCO, Aug. 4.—[Exclusive Dispatch.] "I have been broken with Lavigne," said "Young" Gibbs, the Columbus fighter, this morning. "I want every one to know why. I have been putting up some first-class fights around here, and barely made a living by them. There is not a very good field here for a man of my weight, and I intend to leave for the East after one or two more fights. Lavigne has done the best he could; I've done the best I could, and we've made no money. So I guess it's time to split. "My principal complaint is of the way he acted in Los Angeles. Nellie was over weight, but Lavigne told me that he would collect a forfeit after the fight. If I ever collected I have not seen a cent of the money. Two months ago I served upon him the three months' notice required by our contract. On September 12 I will be free."

Blues Was Favorite With the Winner and Ethics Coupled as Strong Second Choice—Herbert Finishes Second and Articulate Third.

IN THE NEW ASSOCIATED PRESS—P.M.  
SARATOGA (N. Y.) Aug. 4.—Charles F. Dwyer's three-year-old Francesco won the \$10,000 Saratoga Handicap, the feature race of the Saratoga Association's opening day's sport, this afternoon. Blues was the favorite, with the Dwyer pair, Ethics and Francesco, coupled in the betting, strong second choices. The field numbered eleven.  
Articulate was first away from the post, but Lord Pepper and Blues outran him to the turn. Blues went to the front, going down the back stretch, and opened up a gap of five lengths. ### Books That Sell by the Pound.

Thousands of families all over the country treasure old Bibles, hymn books and volumes of sermons published in the eighteenth and seventeenth centuries, fondly believing that any of these works may be sold some day, if necessary, for a sufficient sum to pay off the household mortgage. Requests like this are being received constantly by newspaper editors. Please let me know the value of a Bible, published by Smith & Jones, London, in 1745. I am informed that it is worth a large sum. In almost every case the reflection on pulpit taste in book collecting, but it is true, nevertheless. There still is a popular impression that age alone gives value to books. A wheelbarrow full of theological treatises issued previous to 1800 may be bought for a few shillings apiece.—[Boston Herald.]

### Canada's Game Fields.

To one who knows what the vast solitudes of Northern Canada really mean the dread of game extermination seems rather uncalculated. The latest census of Labrador gives it a population of one man to every thirty-five square miles. This can hardly be called an inconvenient crowding. There are almost as many persons in a single east side New York block as there are in the whole of Labrador. Why should game become extinct in this region? I must confess I can see no reason why the caribou and the bear and the other animals should not live out their lives just as they have always done. The numbers killed by man must surely be quite insignificant. In some conditions obtain in northern Ontario, the greater part of the northwest territories, and a very large part of British Columbia. The date is far distant when there will not be sufficient game and to spare for the sportsman who is content to take the game for the sweet and to leave behind the luxuriousness of the fashionable resort.—[Outing.]

### How She Made Money.

"Oh, Dick," said Mrs. Shady-side to her husband, "I made \$10 today." "Glad to hear it, I'm sure," replied Mr. Shady-side. "It will help with the month's expenses. Hand it over, please." "You know that a penny saved is a penny earned?" "Oh, you made the \$10 by saving it, did you?" "Yes, it was this way: There was a love of a hat down town that I wanted a month ago, but it was \$25. Well, I kept my eye on it, and finally it was reduced to \$10, and so I bought it. As I saved \$10, I really earned it, didn't I? And you won't have to pay for the hat till the first of the month, either."—[Pittsburgh Chronicle-Telegraph.]

**SWITCH-TRAIN CREW BLAMED.**  
**At Fault for the Santa Fe Smash-up.**  
**Train from Redondo Was Half-hour Away.**  
**Train Dispatcher Calls "Her-ald" Story of Switchman's Feat a Myth.**

The responsibility for the wreck on the Redondo Sunday night at Vernon avenue, which resulted in two deaths, injury to five persons and the destruction of thousands of dollars' worth of property, will probably rest upon the crew of the switching train which was delivering tanks of oil to Combs Bros' refinery. It has not been stated officially who was to blame for the collision, for the investigation by the railroad officials has not been completed, but enough has leaked out to show that the switching train crew will have difficulty in explaining why they were not more careful.

There is no mystery as to the cause of the wreck. The switching train had been sent to the refinery with several tanks of oil. This crew knew that a special passenger train, running light, was soon to be sent to Redondo to bring back a load of passengers from the beach. The Sunday crowd there being too large to be accommodated by the regular trains. It was the duty of the switching crew to look out for the special and to take all necessary precautions for its safety. How ill they performed this duty is shown by the fact that they left a switch open and the other train dashed into it. Furthermore, it has been stated that they had left a tank car on the main track unprotected by a "flag," and even if the switch had not been open the passenger train, which by all rules of railroading had the right of road over the other train, would have collided with this car and a wreck would have occurred.

Whether there was a flagman out, will be ascertained by the official investigation, but there was not, the switching crew will be in a sorry position.

Unfortunately, the switches on that branch of the road are not equipped with target lamps, the reason being that there are few night trains on that branch. Had there been such a light on that switch, the engines of the passenger train would have been warned in time, and there would have been no collision.

**GARDNER'S DEATH.**  
The second death resulting from the accident occurred yesterday morning before daylight, when George Gardner, the engineer of the passenger train, died of injuries at the St. Francis Hospital. When the incident occurred, the attending physician announced that none of the men was in a very serious condition, that their wounds were superficial, and that all would recover. They did not know that Gardner had inhaled a fatal dose of oil, which had seeped into his lungs. His home was in San Bernardino, and he had been employed in this city a few days.

The body of Thomas Martin, the fireman of the switching engine, was found in the ditch alongside the track, and within a few feet of the wrecked engine, yesterday morning. The bodies of both victims of the wreck were taken to Breese Bros' morgue. An inquest will be held today.

The other persons who were injured were reported last night to be rapidly recovering, none of them being in the opinion of the attending physicians in a serious condition.

**HERALD'S HUMBUG.**  
Railroad men, and particularly employees of the Santa Fe who are familiar with the running time of the trains and the locations of the siding along the line, are laughing at the story of the switching train which prevented another collision, published by the Herald, and promptly repeated editorially and otherwise by the Express. The employees in the local area of the Santa Fe have come in for a dose of good natured banter because of those reports. If these reports of the accident were true it would show that the train dispatcher had sent one train out when he knew another was approaching on the same track.

If the Herald's yarn were true there would have been an awful wreck whether or not the switching crew had left the switch open and unprotected by a flag.

Both papers published stories of how a moment after the collision a switchman seized a lantern, and running north on the track, saved the Redondo mail coming back loaded with passengers.

How does it happen that a train from Redondo was north of the wreck? The truth is the Redondo mail was not flagged, for there was no need of flagging it. It did not approach the wreck, and the switching train was not. It was a special train. It had orders to run as a regular train from Redondo to Central avenue, where there is a siding. It was making the run to Central avenue when it ran into the open switch and was wrecked. The regular north-bound Redondo train had received similar orders and stopped at Central avenue to wait for the other train, and not meeting it there, proceeded, after having been released.

It must have been half an hour after the wreck before the train from Redondo approached the scene of the accident, and the only reason it was ordered to proceed at all was that its locomotive might be used in the work of clearing away the wreck. If that could have been done then. This train was never in any danger. The light from the burning oil was so bright that it could read a newspaper a quarter of a mile away and on the straight track below the wreck the light of that train would have been sufficient warning to any engineer to stop his train.

**WATER COMMISSION.**  
Regular Weekly Meeting of the Board Held Yesterday—Good Condition of the Funds.

The Board of Water Commissioners held a brief session yesterday afternoon, and disposed of routine business. The auditor reported the total collections for July to have been \$46,351.19, about \$200 less than for June. He also reported the condition of the several funds, as follows: Water deposit fund, \$696.65; revenue fund, \$51,048.79; operating fund, \$95,862.54; emergency fund, \$172,440.40; interest and sinking fund, \$125,555.55.

Residents of the vicinity of Echo Park presented to the board the same petition presented to the Board of Health, complaining of the condition of Echo Lake. It was placed on file.

A petition for the removal of the fire hydrant, which stands in front of the proposed main entrance of the new Mason Operahouse on Broadway, was referred to the superintendent for report.

Petitions were received from residents of Forty-sixth street, east of Central avenue, asking for the extension of the water main, and for the location of fire hydrants; also from residents of Thirty-eighth street, to the same effect. The secretary was directed to notify the petitioners that both would be complied with as soon as the necessary pipe was received.

**MUSCLES THREE "R'S"**  
ANOTHER METHOD OF PHYSICAL  
EXERCISES EXPONDED BY AN EXPERT  
ON THE MOVEMENTS - MECHAN-  
ICAL EXERCISES RESULTING IN OVER-  
EXERCISED MUSCLES TO BE AVOIDED.

BY SYLVESTER J. SIMON,  
Physical culture specialist, Chicago.

VARIOUS methods of physical  
culture may be truly said there  
is no end and it may be added  
that almost all of them that  
are rational, they can scarcely  
produce beneficial effects. Physi-  
cians in the army to be  
the able-to-the-office-at-a-  
ride-home-again inactivity

panies. No training which relies on me-  
chanical means of developing the phys-  
ical powers is correct. The "muscle-  
bound" athlete with some muscles tre-  
mendously developed at the expense of  
others, whose muscular development  
is without harmony, grace, proportion,  
is not the type of physical man which  
we must have before us when we set  
about the rebuilding of physical man-  
hood.

In my first article I wrote of the al-  
most magical effectiveness of some sim-  
ple yet unique breathing exercises in  
stimulating the vital functions. In this  
paper I shall call attention to a plan  
for physical development which pos-  
sesses advantages superior to all ordi-  
nary methods. The only drawback is  
that it cannot be followed by any in-  
dividual alone and unaided. Two must

has to be carried back. But in the  
exercise shown in the illustration  
where the principle of developing one  
muscle by opposition to its fellows is  
carried out in movements joined in by  
two workers, the correct cycle of  
movement is complete. Look at cut  
No. 1. The instructor is giving exer-  
cise for developing the biceps and  
strengthening the muscles of the shoul-  
der and back. He applies the resistance,  
and as soon as the necessary  
movement is completed there is entire  
relaxation of the muscle exercised. The  
cycle of natural movement is rounded-  
rigidity, resistance, relaxation.

Now, look at the exercise illustrated  
by cuts Nos. 2, 3 and 4. It is applied  
for the purpose of strengthening the  
muscles of the chest, arms, abdomen,  
shoulders and legs. No. 2 represents  
the beginning of the movement. No. 3  
the exercise nearing its close, and No. 4  
the finish. Again you will notice that  
the alternating movement is com-  
plete—from rigidity to repose by way  
of resistance. But there is something  
else to remark in these pictures, and  
something of the very greatest im-  
portance. Why is it that physical ex-  
ercise so often results in weakening  
the heart? Because it has been in-  
cautiously applied. Physical training  
is a much more delicate matter than  
most people suppose, and there are  
many who imagine that swinging  
dumb-bells, if it increases the mus-  
cles of the arm, is doing great good  
and making a man healthy all over.  
Never was there a greater delusion.  
In the first place, as pointed out above,  
it does not apply the natural cycle  
of movement, and in the next place it  
cannot be graduated to repose by way  
of resistance. The instructor not only  
knows the amount of strain which is  
being applied, but he can feel just when the strength of the  
pupil ceases to bear any further resistance.  
The possibilities of graduating  
physical exercises by this natural  
method are obvious. The instructor is  
a kind of strength gauge for the pupil  
to determine whether a force of five  
to fifty pounds is required to bring a  
particular muscle into play.

The free play of muscular movement  
by the natural method exemplified in  
these exercises is superior to that of  
the mechanical in another respect: It  
develops quickness, alertness, grace—  
qualities that are so often conspicuous

work together, one resisting the move-  
ments of the other.  
**THREE "R'S" OF MUSCLE BUILD-  
ING.**  
Rigidity, resistance, relaxation, are

the "three r's" of muscle-building—the  
three constituent factors in giving  
free play to muscular activity.

NO. 2.

Here we at once see the mistake of  
applying mechanical means. If, for  
instance, you exercise the biceps and

**DON'T GET IN A SWEAT**

Perspiration—"sweat" is what the Bible and we common peo-  
ple call it—is a way nature has of driving out of the body refuse  
that has no business there. We sweat more in summer, because,  
in the overheated bowels, undigested food ferments more quickly  
than in winter and produces irritating acids and gases. The bowels,  
overworked, try to relieve themselves by violent convulsions,  
causing terrible gripes and colics, and diarrhoeal discharges so acid  
as to make you sore, and leaving the intestines weak and worn out.  
Nature assists body-cleaning by sending the filth out through the  
pores of the skin. It is not safe to stop perspiring altogether but  
most of the impure matter should be sent out by natural move-  
ments of the bowels, and the offensive, ill-smelling, linen-staining  
sweat done away with. Keep your bowels strong all summer with  
the pleasant, candy cathartic CASCARETS, that clean the system  
and don't allow the excrement to be sweated out through the  
pores. Take a tablet every night, before going to bed. They  
work while you sleep and make you feel fine and cool all day.

Best for the Bowels. All druggists, and 25c. Never sold in  
bulk. The genuine tablet stamped C. C. C. Manufactured in U.S.A.

## NOT AT EL MONTE.

Murder Sunday Night Was in a Saloon Four and a Half Miles from the Pretty Foothill Town.

The drunken brawl, which ended in the killing of Thomas Bayne by Charles Temple early Sunday morning, did not occur at El Monte, as has been published, but in Temple's saloon, known as La Paloma Clubhouse, four and one-half miles from El Monte. The scene of the killing is an historic one. It was there that the first San Gabriel mission was established, more than a century ago, and during the Spanish rule of this part of the country, it was a meeting place for people for miles around. El Monte was settled many years afterward.

Temple is still in jail. The date of his examination before the justice of the peace of San Gabriel township has not been set.

Dodwell's wife and daughter attempted to go to his rescue, but were prevented by the mob. The cause for the whipping is not known.

"Find three ends of this piece of rope and I'll make you one of the crew," said the captain when an Irishman asked for a job on his ship.

The Irishman took up the rope. "Here's one end to your honor," said he as he held the end toward the captain. "And then throw the rope overboard." "And there's another end to it," he yelled. "The captain hired him."

We want to find the third end to our Summer Buildings.

There certainly ought to be "another end to them," when the price of \$9.00 suits has been thrown overboard.

It's a monster sale.

**A WORD TO THE GREAT ARMY OF SUMMER TOILERS.**

If You Are Not as Robust, Vigorous and Happy as Others in the Month of August,

**PAIN'S CELERY COMPOUND**

Will Give You Health, Full Energy and Happiness.

Many men toiling in offices, stores and workshops during this hot summer weather, and women weighed with the work and cares of home, are critically near the breaking down point. The symptoms of coming sickness and disease are manifested in sleeplessness, nervousness, tired feelings, languidness, irritability, falling appetite, and pure blood circulation.

Pain's Celery Compound is a precious boon to the ailing, sick, and rundown in this August weather. A bottle or two used at once will quickly bestow the needed strength to battle against the weakening and curdling effects of the oppressive heat, and will enable men and women to go through the necessary routine of daily toil with heart, soul, and energy. Pain's Celery Compound is specially distinguished for its ability to build up rundown systems in hot weather.

Mr. George W. Demarest, of 128 West 5th Street, New York, says:

"I am a licensed stationary engineer, and although my work is not very laborious, I suffered so intensely with severe pains in my back and kidneys that I was compelled to leave my work and remain at home for six months. I suffered greatly with headaches and nervousness in chest and lungs, and my joints became very stiff. I actually felt I was doomed to fill an old man's grave at the age of thirty-two. As a last resort, I used two bottles of Pain's Celery Compound when I was able to resume my work, and after using the third bottle, I am in perfect health. The value of Pain's Celery Compound is incalculable, and I urge others afflicted as I was to use it."

THE PUBLIC SERVICE OFFICIALS' WARRING AGAINST GIRL-ENSLAVERS.

SUMMARY OF THE DAY.

At the request of commercial organizations, action on the police salary schedule was postponed two weeks by the Council yesterday.

The Council voted yesterday to reject all bids for the garbage contract and to readvertise under altered specifications.

Application was made by Col. J. W. Eddy yesterday for permission to build an incline railway in Griffith Park.

The official Council proceedings, published by authority, will be found elsewhere on this page.

Justice Morgan yesterday fined a man for an "ice water drunk."

Frederick W. Olcott, a navy officer, was sent to the insane asylum yesterday.

Henry J. Kramer, the dancing master, has recovered damages against the city for the flooding of his place by storm water.

Yesterday the Supervisors appropriated \$3000 to connect the Hollywood boulevard with the city.

AT THE CITY HALL.

ACTION ON SALARY ORDINANCE POSTPONED.

POLICE SCHEDULES WILL HAVE TWO WEEKS' CONSIDERATION.

Councilmen Grant the Requests of Civic and Commercial Organizations—Keeney Cautious That His Schedule Will Be Adopted—Garbage Contract Readvertised.

In deference to the request of the Merchants' and Manufacturers' Association, the Chamber of Commerce and the Municipal League, the Council yesterday deferred action on the police salary ordinance for two weeks. As far as outward indications are concerned, no other action was possible as the Council has reached an absolute deadlock.

His votes are required to adopt a schedule of salaries for the department and seven would be required to pass the measure over the veto of Acting-Mayor Powers. It is said on good authority that it has been impossible to obtain six votes in favor of any of the schedules that have been considered in caucus.

Undoubtedly the schedule approved by the Police Commission, which provides \$1000 for the patrolmen, first year \$1000 for the second, \$1100 for the third and \$1200 for the fourth, has met with the greatest favor in caucus. The plan to adopt a sliding scale of salaries, based on term of service, has met with universal favor and if a change is made this idea will be incorporated, it is said. Policemen favor the scale because it puts a premium on long and efficient service. Councilmen and citizens generally express the belief that such an arrangement of salaries is just and advisable.

Police Commissioner Keeney was present at the session yesterday morning to urge the merits of his schedule which was submitted to the Council in caucus on Wednesday of last week. Secretary F. J. Zeehandelaar of the Merchants' and Manufacturers' Association appeared to advocate delay.

SCENIC RAILWAY.

COL. EDDY INTENDS TO BUILD.

Promises of a scenic railway in Griffith Park is contained in a petition referred by the Council to the Board of Public Works yesterday. As outlined in The Times last Sunday, Col. J. W. Eddy of the Kern-Rand Electric Company, and the Los Angeles Incline Railway Company, which built the "Angels' Flight" up the Third-street hill, intends to build a railway to the highest point in Griffith Park, if permission can be obtained from the authorities.

Already the plans for the road have been drafted, and if granted a franchise, Col. Eddy expects to make of Griffith Park a popular resort. Connection with the Los Angeles-Pasadena Company's Hollywood branch will be made at Vermont avenue, from which point the proposed road runs northerly on Vermont avenue to land owned by Col. G. J. Griffith; thence in a northerly direction across this land to Vermont-avenue canyon and on to the cañon to the foot of the hill. From this point it is proposed to build an incline railway over 2000 feet long, to the summit of the highest peak in the park. At the top, an observatory and other attractions are planned.

GARBAGE BIDS.

COUNCIL'S MISCELLANEOUS.

Because of certain technical objections to the form of the specifications, the Council yesterday voted to readvertise for bids on the garbage contract, and to reject all proposals received last week. It was asserted that the specifications discriminated in favor of Franklin & Alexander, because certain makes of crematories were specifically mentioned, and all others debarred. To dispose of all question, the Council yesterday decided to revise the specifications, so as to allow all crematories to be used, if shown to be as good as the standard makes.

TURNED DOWN.

OIL-SPRINKLING CONCERN.

Having some small objections to paying \$5 a mile to a corporation because county roads are oiled, the Supervisors turned down the claim of the California Dustless Road Association yesterday.

DUTIES OF EXPLORERS.

COURT'S OPINION.

In an opinion handed down yesterday, Judge York held that employers, like angels, can only be expected to do the best they can.

KRAMER RECOVERS.

DAMAGES FROM CITY.

For the water that trickled through the dancing academy of Henry J. Kramer during the last rain, the city will have to pay more than it had been. Kramer recovered judgment in Judge York's court yesterday for \$2813.85.

HINT TO PASADENA.

BUILD A BRIDGE.

The Supervisors gave Pasadena a poke yesterday for its failure to build a bridge over the terminus of Avenue 66 at Pasadena.

POMPEY'S SECOND TERM.

THE FATE OF A BULLY.

Pompey Smith, a bullet-headed coddler who can't keep his hand off his razor when he feels bad, will soon be breaking rocks at the Folsom State prison.

AT THE COURTHOUSE.

EX-NAVY OFFICER SENT TO ASYLUM.

Henry J. Kramer Gets Damages from the City for the Storm Water That Flooded His Dancing Academy—Supervisors Turn Down Claim.

Frederick W. Olcott, formerly a navy officer, was sent to the insane asylum by Judge Connelley yesterday.

It was a very pitiful case. Olcott is only 42 years old, and the brain of a sailor. The bronze of the deep sea is still in his cheeks, and the dance of the whitecaps has not gone from his crazy eyes. His lithe, handsome physique would attract attention anywhere.

WAY. Hays Potter, who had been dangling round the vicinity, ran after him and demanded the dollar.

After some high words he struck him on the head with a rock, and after telling him to the earth, sat on him in the road and choked him. He tried to pull Potter away, but failing, drew a revolver and threatened to kill him unless he released Everhardy.

COURT NOTES.

BREVITIES MISCELLANEOUS.

INSANE WOMAN. Susan Hackelbacher, who has been suffering from melancholy for three months, was committed to the insane asylum by Judge Connelley yesterday.

RAILROAD SUE.

H. Holmes & A. Chaney, H. F. Anderson, J. H. Schumacher and F. M. Notman have sued the Hermosa and Redondo Railroad Company for \$2000 damages for building a track across land leased by them, for cutting their water ditches and turning their cattle loose.

NEWS REPORTS FROM TIMES CORRESPONDENTS.

NOVEL DAMAGE SUIT  
IN SAN BERNARDINO.REPARATION ASKED FOR ALLEGED  
FALSE IMPRISONMENT.

Discharged Philippine Soldier, Charged by Pierce Hunt, Leaps from Train—William Tucker, Santa Fe Section Foreman, Jumps to His Death.

SAN BERNARDINO, Aug. 4.—A suit has been instituted by Lewis E. Chittenden against Justice of the Peace Currier of Barstow and W. H. Wakefield for \$10,000 damages, \$500 for alleged false imprisonment and a like amount for the unpleasant notoriety he has attained by reason of his arrest and commitment.

Chittenden was accused by Wakefield of robbing his saloon and taking about \$200 in cash and several watches and revolvers. A charge of grand larceny was preferred, and after being imprisoned at Daggett and Barstow, Chittenden was bound over for trial in the Superior Court by Currier with bonds fixed at \$1000.

In the upper court the proceedings against Chittenden in the Justice Court were found to have been very faulty from a legal standpoint, and the charges were dismissed and Chittenden set free. The damage suit followed. Chittenden is at present employed as a book-keeper in Los Angeles.

**SOLDIER'S RASH LEAP.**  
Edward Kennedy, a discharged soldier of the Philippines, leaped through a window of a train three miles east of Daggett yesterday afternoon. He sustained a scalp wound, a fracture of the thigh and internal injuries which may result fatally. Kennedy was on the way from San Francisco to his home at Fall River, Mass.

Temporary insanity produced probably by the heat of the desert caused the wild leap. Kennedy appeared all right until after the train passed Daggett, when he became hysterical, and, calling out that the "niggers" were coming, suddenly took a header through the open window.

When picked up he was insensible, in which condition he remained until his removal to the hospital at Daggett. At Needles, where the physicians succeeded in restoring him, he escaped from instant death in a hospital. He was short of a mile from the train when he made the leap.

**LEAP CAUSED DEATH.**  
From a swiftly-moving passenger train near Needles yesterday William Tucker, a section foreman employed by the Santa Fe, made a leap which resulted fatally. Just what caused Tucker to make the jump is not known, though it is conjectured that the intense heat of the desert had driven him temporarily insane.

He lay several hours where he had fallen before he was found by the crew of another train. On reaching Needles every effort was made to restore him to consciousness, but without avail. A few bruises on the shoulder and a few bruises on the back and head, there were no external injuries, but he had sustained concussion of the brain and spine. Tucker was one of the best-known railroad men in this county.

**FLYNN LEAPED ALSO.**  
Daniel Flynn of San Bernardino leaped from a freight train at Ash Fork, Ariz., yesterday, and sustained serious injuries.

**POLITICAL AFFAIRS.**  
The Republican County Convention will assemble at the Pavilion Wednesday morning, at 11 o'clock. There are two or more candidates in the field for most of the county offices, and there is every prospect of a lively fight all along the line.

**STRIKE "OFFICIALLY" OFF.**  
The boiler makers' strike at the Santa Fe shops at Needles has been declared "officially" off. "Strike" has been running about ten weeks, and so have the shops about usual, except in the minds of the scores of strikers and newspaper editors of the trimmer class, who, in their greed for a little local advertising, have been the cause of the strike, and open for anything the strikers had to say, foolish or otherwise, in detriment to the Santa Fe Company, the great business mainstay of the city.

Valuable collection of pictures. Secure the story of the greatest disaster of modern times by sending 10 cents to The Times for the first part of "Martinique, St. Vincent and Danish West Indies," and other parts, to follow.

**LIVELY FIGHT AMONG  
RIVERSIDE REPUBLICANS.**

**MORE INTEREST THAN IN A GENERAL ELECTION.**

Primaries to Settle Nominations Which are Tantamount to Election—Practically the Same County Central Committee Will Remain in Control.

RIVERSIDE, Aug. 4.—About the liveliest primaries ever witnessed in Riverside were those held today to elect delegates to the Republican County Convention, which will be held Thursday at Loring Theater. In four of the eight city precincts two tickets were in the field, with the candidates actively at work corralling votes. In one precinct there were three tickets, and politics were played up to the limit until 10 o'clock in the evening, when the polls closed. The fight centered on the nominations for Assemblyman and Assessor. Summed up, it is the liveliest election in the history of the county.

The Board of Supervisors was in session today, but the auditing of the usual monthly demands upon the treasury occupied the entire day.

**REDALED.**  
REDALED, Aug. 4.—A number of Mexicans gathered at the home of Guadalupe Alvarez Saturday night and proceeded to fill up on wine. After all except Pablo Morales had become so intoxicated that they were not aware of what was going on about them, Morales proceeded to relieve them of their valuables. After having slept off their stupor the balance of the party discovered they had been robbed, they accused Morales of the crime and proceeded to search him for a portion of the stolen articles was found on his person. He promised to restore the balance and to return to his home at Corona, but did not return. Yesterday morning Morales was notified and later arrested Morales, who was at the time wearing a stolen coat. He was taken before Justice Warren this morning, pleaded guilty and was sentenced to serve fifteen days in the County Jail.

**REDALED BREVIETTES.**  
An exciting runaway occurred this morning which caused all persons driving on Orange street between the Santa Fe Railroad and Pearl Avenue to drive rapidly into side streets for safety. A team belonging to the Independent Ice Company took flight in the vicinity of Chittenden and ran over a woman, turning north on Orange and running to the top of the Casa Loma hill, where it stopped. No serious damage was done.

At once as the line is to be built, and such other preliminaries as are essential have been consummated, the road will be built. The track will begin at the Victoria street depot, and will run north with the Arroyo street line, and continue along Victoria street to the railroad track; then turn south, and will run parallel with the Victoria street line, and will be built. The delay in building this line has been occasioned by the uncertainty as to whether or not the Southern Pacific Company would erect a down-town depot, but now that the company has decided not to build, a convenience second to no other one for this city, as the trips must now be made in hacks or cabs at the usual twenty-five cent fare, and over dusty roads.

## PANADERA MAN TWICE ATTEMPTS SUICIDE.

**COPTS HIS THROAT, BUT FAILS TO INFLICT FATAL WOUND.**

He Once Before Made Similar Attempt and Had Not Recovered—Hunters Arm Blown Off Near Sierra Madre—Old Fire Horses to Be Retired.

PARADERA. Office of The Times, No. 30 South Raymond Avenue, Aug. 4.—Henry G. Thornton is determined to die by his own hand and is persisting in his determination. For the second time in the past three months he attempted last night to end his life and failed, while still confined in a sanatorium and suffering from the effects of the attempt by sending a razor through his throat.

The attempted suicide occurred at a private sanatorium maintained by Mr. and Mrs. Jorachsky on Cypress Avenue, where Thornton has been confined since his first attempt on the evening of May 17. The attempt was made alone but a few minutes when Thornton reached a sharp butcher knife that was lying near, and with one slash cut a great gash in his throat. That he did not bleed to death was due to the pressure of the razor in time to stop the flow of blood and thus save his life. Mr. Jorachsky stated that his patient had been in constant pain all day suffering agonies from the effects of the old wound and from rheumatism.

Henry G. Thornton is a stone-cutter and monument maker by trade, and resides at No. 183 Millard Avenue with his wife. He has been a sufferer from rheumatism for many years, having come to California several years ago for his health. He is about 54 years of age.

While sitting alone in the little garden at the Millard Avenue home the man attempted suicide under almost the same circumstances three months ago. During the temporary absence of one of his sisters he cut a gash in the side of his neck. At that time he was determined to die, but while the purpose was to cut a gash in his neck and throat, he cut a gash in his neck and fought for the privilege of bleeding to death. Although he was in a precarious condition last night, it was expected that he would survive the effects of his rash attempt.

**USUAL HUNTING ACCIDENT.**  
Harry Johnson of No. 240 Downey Avenue, Los Angeles, and recently from Brooklyn, went dove hunting at Chapman's ranch Sunday afternoon, and as a result of today lying in the Pasadena Hospital with a broken arm.

The untimely explosion of his shotgun nearly blew the left forearm off, but by the use of a delicate operation, which will show the two men a young man, the physicians avoided the necessity of amputation, and express hopes of making the arm as good as new.

The accident occurred at about 3 o'clock Sunday afternoon. Accompanying Mr. Johnson was a young man of 21 years, came out from Los Angeles for a hunt on Chapman's ranch four miles east of Pasadena. While the two men were in the fields Johnson attempted to climb a barbed-wire fence. Putting his foot on the wire he carried through the fence and fell. The gun was discharged and the bullet passed through the man's left forearm, nearly severing it, and completely shattering the bone.

With the aid of a long drag, the injured man was brought to the hospital. He came to the rescue of the injured man, he was conveyed in a carriage to the home of Dr. Franklin J. Tower at Pasadena. Johnson was then taken to the Pasadena Hospital, where the operation of removing the shattered forearm was performed. The young man has good chances of recovery without losing his arm.

**WILL BUY FIRE HORSES.**  
At the regular meeting of the Board of Police and Park Commissioners yesterday afternoon it was decided to retain the veteran fire horses of the city department and advertise for bids to supply thirteen new animals to take their place and for the new fire house to be built on Villa street.

One of "Mack" and "Roxie," the engine horses, "Dave," the powerful animal with the long drag, and "Jerry," one of the true teams, marks an epoch in the history of the local fire department. Twelve years ago the horses, also colored, were in the old Dayton-street house, the first modern fire-fighting establishment in the city, and ever since they have worked for the department. Old age demands their retirement now, and they will be sent to the slaughter by the city.

The thirteen new horses to be bought for the city will be purchased as the bids of the department require. The horses will be placed in the Dayton-street house.

What the equipment of the new fire house will be has not yet been determined, although the commissioners are agreed that the new fire house will be placed there. As soon as the plans are finally determined the city will have a second fire company to replace the residence district.

## FATHER USES FORCE TO RECOVER CHILD.

**SNATCHED IT FROM A LONG BEACH WOMAN AND RAN.**

Unusual Case About Which There is Mystery—Alleged Grandfather's Child is Safe, but Will Not Give His Address—In Effects of Long Swim.

LONG BEACH, Aug. 4.—A mystery hangs over the head of a child which was stolen Sunday evening from the home of George F. Brewer of this city.

Mr. Brewer is the janitor of the Long Beach Methodist Church. Several months ago Mrs. Charles Thorne left a baby girl with Mr. Brewer's family at No. 333 Chestnut street. Mrs. Thorne said that she was seeking employment and went away leaving instructions that the child should not be taken from the place without her consent.

The little one was kept at the Brewer's and became a pet of the family. Time went by and there was no thought that the girl was in danger, so when the little one's father called Sunday afternoon and asked to see the child he was told that she was at the Brewer's and was being cared for by Mrs. Brewer.

Mrs. Brewer had the child in her arms when suddenly the father grabbed it. Mrs. Brewer held on as firmly as she could, but the father was too strong for her. He finally compelled her to let go. The father ran out of the house without stopping for his hat, and made his way in an electric car bound for Los Angeles.

Before he could be hindered the car had carried him to the city.

This afternoon a man who said he was the father of Thorne called at the Brewer house and demanded the child. He said he was in California and was well and in the hands of his father. A representative of The Times called at the Brewer house when Mr. Thorne, Sr., was there, and asked where he was staying in Los Angeles. He said it was on Main street somewhere, but he refused to give the address.

**PERILOUS LONG SWIM.**  
Mrs. Martz, who attracted considerable attention by swimming around the pleasure pier Friday, was seriously affected by the fatigue and discomfort caused. With one of the crack long-distance swimmers spending the summer here she put out from shore on the west side of the pier, and the face of a choppy sea they struck for a position well out beyond the end of the pier.

Any one who has had occasion to swim in a choppy sea knows, they were both with the little waves which at frequent and unexpected intervals would sweep over their heads and drench them.

Sometimes with her right hand and sometimes with her left hand the man's back she accompanied him till they were forty yards beyond the pier. There they turned and swam over the east side of the wharf, where they landed. She showed signs of exhaustion, and the man picked himself up and swam to the shore.

That night at midnight she had a severe attack of heart failure, and it is believed to have been due to the long swim. She was attended by Dr. Donnell.

**FELL INTO A BREAKER.**  
Mrs. Dr. M. Tullies was seated on the railing on the ocean pier today, when a pavilion Saturday evening. She sat in the elevated position with her feet on the railing and her hands on the railing. One of the seats so that she might look over the railing and see people in front of her, and while she was doing that she leaned backward and fell into the water. Fortunately it was high tide, and she fell only a few feet. She was three or four feet of water, so that the water broke the force of the fall onto the hard and beneath. Dr. Tullies, who sat near her, saw her fall and quickly, and declared that she was uninjured. She did, however, receive a number of painful bruises, as she afterward discovered.

## SANTA CATALINA ISLAND.

**CLEMENTE'S "MAYOR" WEDS.**  
AVALON, Aug. 4.—It has now developed why the Mayor of San Clemente had left his post of duty and was spending his time on Santa Catalina. The Mayor was not idling his time away, but was making hay at the clouds rolled by. There was a wedding last night at the little Catholic church on the hill, at which John C. Roberts, Mayor and Major Domo of San Clemente and superintendent of the San Clemente Water Company, and Miss Lucy A. Morich, daughter of Vincent Morich of Avalon, were the chief actors. Miss Sarah Gulon, a cousin of the bride, was bridesmaid, and Paul Semler, his best man.

The ceremony was performed by Father F. Byrne with quite a company of invited guests in attendance. The bride was handsomely attired in a gown of crepe de chine and wore a crown of pearls. The groom wore a tuxedo. The couple left this morning for the mainland, where they will spend a few weeks before going to San Clemente.

**FISHERMEN'S TALKS.**  
Judge Knox, for more than twenty years Justice of the Peace of San Bernardino, is visiting Avalon. The judge was fishing from the wharf recently, when a man apparently much older came along with his rod and cast. The newcomer had no luck, while Judge Knox was filling his basket with fine fish, which made the later arrival's mouth water and he expressed the wish that he could get enough fish for breakfast. "Take some of these, Judge," said the older man, and he passed an ample meal over to the stranger. The question of age came up in the transfer and it was found that the older-appearing man was seventy, while Judge Knox was only sixty-two.

There was something of a lull in the fishing today. While everybody caught a few fish, the catches were generally light, and the sport was not very hilarious. The best catch reported in the forenoon was taken by J. P. Conner of Los Angeles, who caught a yellowtail, a rock bass and nine barracuda.

W. Phillips of Los Angeles and H. W. Reed of the City of Mexico had a grand catch yesterday. They were out with the Nautilus and bagged eighteen yellowtails, fifteen rock bass and nine barracuda.

T. McD. Potter of Los Angeles and Howard Buttrick of Duarte, out with the Nautilus this morning, got three yellowtails, one albino and a rock bass.

Mrs. L. Phillips of Pomona, with the Adelaide, had two albino and a yellowtail.

**BURGULAR GOT LITTLE.**  
MONROVIA, Aug. 4.—Saturday night a burglar entered the grocery store of W. H. Wright and appropriated the change which remained in the till, which was only a small sum.

**TEACHER HONORED.**  
Saturday evening at the home of Mrs. J. K. Stuckney, on White Oak Avenue, the pupils of the High School gave a delightful reception in honor of Mrs. Stuckney, who for several years has been a teacher in the Monrovia schools. Miss Barden has resigned her position here to teach a class of one at the State University at Urbana, Ill. On behalf of the pupils of the High School, Miss Gertrude Neely presented to Miss Barden a number of which were college song in parody, cleverly describing in prophetic lines the future home duties of the whilom school teacher.
